### STATEMENT OF OBJECTS AND REASONS

In the existing section 379 of the Pakistan Penal Code, there is provision of 3 years imprisonment of either description, or with fine or both. However, the said punishment has failed to control the crime of theft or to create an effective deterrent. Nowadays, there are gangs of thieves who are operating locally as well as inter-district or inter-provincial level making it difficult to control such crime when the police is equally inefficient or in collusion with such gangs. Consequently, the general public is the worst sufferer as there are no punishment which either creating any deterrence or punishment in punitive effect reforming such offenders. Therefore, it is necessary to introduce system of punishment with quantum and financial implications of the offences to create an effective deterrent as well as make theft a non-beneficial activity.

2. The Bill seeks to achieve the above-said objectives.
